Professional Summary

Electronics Engineering graduate with expertise in applied Artificial Intelligence, embedded systems, and renewable energy. Combines industry experience with a strong research track record in applied AI and renewable energy.

Education

- Pontificia Universidad Católica del Perú (PUCP)** Lima, Peru
Bachelor of Science in Electronics Engineering (Top 10%) Mar 2020 – Dec 2025
• **Thesis:** Neural Network-Based MPPT Optimization Algorithm for Photovoltaic Generation Systems.
- University of Calgary** Calgary, Canada
Academic Exchange Program – DARI Mobility Scholar Aug 2023 – Dec 2023
• Coursework: Applied AI, Photovoltaic Systems Engineering, Embedded Systems Interfacing, Biomedical Design.

Publications

- **Edge AI for Solar: Embedded Deployment of Neural Network MPPT on Low-Cost Microcontrollers** — First Author. 2026 ICAHC. [[IEEE Xplore: 11454427](#)]
- **Comprehensive Multi-Technology PV Operational and Environmental Characterization Dataset** — Co-Author. *IEEE DataPort (Good Datasets for AI Competition in Power & Energy Domain)*. [[IEEE DataPort](#)]
- **Feature Selection for Data-Driven Solar Photovoltaic Maximum Power Point Tracking** — First Author. *IEEE IECON 2026. Accepted.*
- **Multi-Source Transfer Learning for Facial Pigmented Lesion Classification in Data-Limited Contexts** — Co-Author. *MEDICON 2026. Accepted.*

Research & Venture Experience

- AgroScan – AgTech Startup** Lima, Peru
Co-Founder & Hardware Lead May 2025 – Mar 2026
• Co-founded an agtech venture building an autonomous agricultural robot for crop leaf disease detection.
• Graduated from the Equipu accelerator program; advanced to final pitch stage for ProInnovaTe funding.
- Summit of AI in LatAm (SALA) & Galapagos Project** Quito, Ecuador / Remote
Team Lead & Primary Researcher Mar 2026 – Jul 2026
• Led team to win 2nd Place in SALA Hackathon with an AI solar forecasting tool achieving 40% improvement over benchmark.
• Coordinated a 5-month research sprint to formalize forecasting architecture into a paper submitted to WAIMLAP.
- Material Science and Renewable Energy Research Group (MatEr)** Lima, Peru
Data Analyst & Research Lead Dec 2025 – Jun 2026
• Led cleaning, structuring, and validation of photovoltaic time-series datasets using Python for AI model training.

Professional Experience

- Pontificia Universidad Católica del Perú (PUCP)** Lima, Peru
IT Infrastructure Support Intern Apr 2026 – Jul 2026
• Managed diagnosis, maintenance, and operational continuity of laboratory equipment and network infrastructure.
- Huawei Digital Power** Lima, Peru
Digital Power Trainee Sep 2024 – Sep 2025
• Executed operational diagnostics on Data Center Facilities (UPS and Precision Cooling systems).
• Trained 10 strategic partners through official sessions, enabling status upgrades to authorized Gold channels.

Leadership & Mentorship

- Via Scientia** Lima, Peru
Research Mentor Jan 2026 – Present
• Mentoring high school and gap year students in scientific methodology and academic drafting.
- La Escuelita** Lima, Peru
Community Educational Volunteer Jul 2026 – Present
• Delivering academic reinforcement and educational support to children facing socio-economic poverty.
- IEEE Aerospace & Electronic Systems Society PUCP** Lima, Peru
Project Director Jan 2024 – Dec 2024
• Led a 25-member interdisciplinary team to engineer an agricultural rover prototype for national competition.

Technical Skills, Certifications & Languages

- **Technical Skills:** Python (NumPy, Pandas, TensorFlow), SQL, Power BI, C/C++, Embedded Systems, Edge AI, Git, LaTeX.
- **Certifications:** Huawei Certified Specialist Expert (Data Center Facility), Python/Pandas Data Engineering (Duke).
- **Languages:** Spanish (Native), English (Advanced), French (Basic), Japanese (Basic).
